DESCRIPTION:

DushHidro SST is a premium-grade formula designed as a comprehensive sealer for all six sides of marble. Offering protection against rising humidity and salt, it's an ideal choice for floor materials vulnerable to moisture damage. This high-performance back side sealer is suitable for both polished and rough marble, granite, and natural stone, particularly soft and delicate varieties. Highly recommended for all expensive, porous, fragile, white and light-colored stones prone to staining.

Product Application Photo:

INSTRUCTIONS TO USE:

1. Surface must be clean and completely dry. Apply undiluted product on all six sides with paintbrush, cotton cloth, mop or low-pressure sprayer on surface evenly. Use the right quantity that the material that can be absorbed naturally. After 15-20 minutes of application wipe off the excess with an absorbent cloth. Repeat second coat as per porosity of the stone.let it dry for 24 hours and proceed with laying.

FEATURES AND BENEFITS:

1. Comprehensive Protection: DushHidro SST provides complete coverage, sealing all six sides of marble to safeguard against rising humidity and salt, preserving the integrity of delicate stone surfaces.

2. High Performance: Recommended for floor materials requiring superior protection from moisture and salt, this sealer ensures long-lasting durability and resilience, even in challenging environments.

3. Versatile Application: Suitable for both polished and rough marble, granite, and natural stone, DushHidro SST offers versatile protection for various surface types, enhancing their longevity and beauty.

4. Ecologically Formulated: Its specific ecological formulation allows for safe application on all six sides, guaranteeing durable protection from water, dirt, and oil-based substances, without compromising environmental integrity.

5. Time-Saving Application: Compatible with humid or damp surfaces, DushHidro SST streamlines the application process, saving time and effort while ensuring effective protection against moisture-related damage.

PRECAUTIONS AND NOTES:

1. Wear Hand Gloves.
2. Keep Out of Reach of Children.
3. Keep the application area enough ventilated.
4. Keep the product closed after usage and away from sunlight.
5. Always test the product before use.

HANDLING & SHELF-LIFE:

Keep the tins closed and stored in a cool and ventilated environment at a temperature of 28-35 °C, away from the source of heat. Best Before 12 months.

SAFETY RULES:

Keep the application area enough ventilated. Keep the tins closed after usage and away from sunlight. Please read carefully the safety data sheet before usage. Always test the product before use.
