

DUSH BRETON

SIZES

1000 ml

COLORS

Clear

AREA OF USE

Marble

PHYSICAL STATE | Liquid

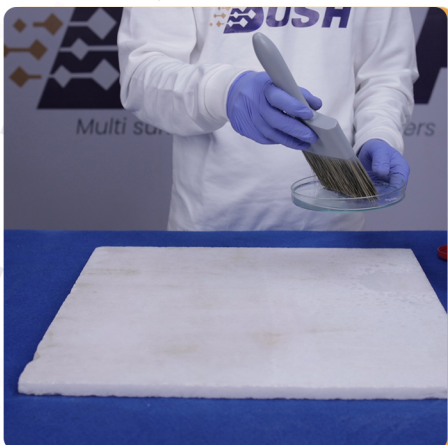

COLOUR | Transparent

RELATIVE DENSITY | 0.785

DESCRIPTION:

Dush Breton is a unique formula designed to protect marble and granite from all six sides during installation. Serving as a shield, it safeguards the color, texture, and prevents stains from construction activities and post-installation salt exposure. Highly recommended for floor materials needing top-tier protection, it ensures the longevity of polished or rough marble, granite, and natural stone.

Product Application Photo:

INSTRUCTIONS TO USE:

1. Surface must be clean and completely dry. Apply undiluted product on the back side with paint brush, cotton cloth, mop or low-pressure sprayer on surface evenly. Use the right quantity that the material that can be absorbed naturally. After 15–20 minutes of application wipe off the excess with an absorbent cloth. Repeat second coat as per porosity of the stone. Let it dry for 24 hours and proceed with laying.

FEATURES AND BENEFITS:

- 1. Comprehensive Protection:** Shields marble and granite from all sides, preserving their appearance and integrity against construction-related damage and salt exposure.
- 2. Humidity and Salt Resistance:** Offers robust protection against humidity and rising salt, vital for maintaining the pristine condition of stone surfaces.
- 3. Eco-Friendly Formulation:** Its specific ecological formula allows application on the back side, ensuring thorough protection from water, dirt, and oil/grease-based substances.
- 4. Versatile Use:** Suitable for both polished and rough stone, Dush Breton is an ideal choice for delicate and luxurious materials, ensuring their long-term durability.
- 5. Efficient Application:** Compatible with humid or damp surfaces, it facilitates a faster application process, enhancing efficiency during installation.

PRECAUTIONS AND NOTES:

- 1.** Wear Hand Gloves.
- 2.** Keep Out of Reach of Children.
- 3.** Keep the application area enough ventilated.
- 4.** Keep the product closed after usage and away from sunlight.
- 5.** Always test the product before use.

HANDLING & SHELF-LIFE:

Keep the tins closed and stored in a cool and ventilated environment at a temperature of 28-35 °C, away from the source of heat. Best Before 12 months.

SAFETY RULES:

Keep the application area enough ventilated. Keep the tins closed after usage and away from sunlight. Please read carefully the safety data sheet before usage. Always test the product before use.
