

DENSI-MAX PRO

Heavy-Duty Marble Densifier

Technical Properties

- Appearance:** Clear to light liquid
- Penetration:** Deep pore penetration
- Dry Time:** 15–20 minutes per coat
- Application Area:** 12 months
- Coverage:** Depends on porosity
- Recommended Coats:** 3–4 coats
- Application Stage:** After 80 grit grinding
- Shelf Life:** 12 months
- Packing:** 5 Litre

Description

DENSI-MAX PRO is a next-generation, heavy-duty densifier formulated to deeply penetrate open pores after grinding and chemically densify the marble structure. It dramatically improves hardness, polish response, and resistance compared to traditional densifiers.

Application Method

1. Grind marble surface up to 80 grit
2. Apply **DENSI-MAX PRO** using brush or applicator
3. Allow to dry for 15–20 minutes
4. Apply 3–4 coats depending on marble porosity
5. Optional repeat application after 120 & 180 grit polishing stages
6. Proceed with final polishing

Storage

Store in a cool, dry place. Keep container tightly closed.

DISCLAIMER:

Before using any Dush products, test on a small, inconspicuous area to ensure compatibility and understand the application process. Results may vary based on application methods, surface conditions, and climate factors such as temperature and humidity. While Dush aims to provide high-quality products, we cannot guarantee specific results due to these variables. By using Dush products, you acknowledge and accept that Dush shall not be held liable for any damage or unsatisfactory results arising from their use or misuse.
