AREA OF USE

Marble

PHYSICAL STATE

Liquid

COLOUR

White

DESCRIPTION:

DUSH LINK is a premium densifier for marble, granite, and other stones. It is specially formulated to treat stone porosity, providing superior protection against dirt, rust, dampness, and stains. By deeply penetrating the stone, it seals micro-fissures, enhances hardness, and preserves the natural color for an extended period. DUSH LINK also delivers a long-lasting, durable gloss with a stain-free effect, ensuring the stone remains vibrant and well-protected over time.

Product Application Photo:

INSTRUCTIONS TO USE:

1. Surface should be clean, dry and dust free. Product should be used undiluted on the surface, spread the product by using the wiper and let the surface completely absorb the solution.
2. Since the porosity of the marble is at the maximum level at grinding stage, this product should be applied repetitively until it stops penetrating into the marble. It treats all micro holes and fissures which eventually helps the marble achieve the finest gloss possible. The result is the floor that is more durable, easier to clean, and more resistant to damage from water and mild chemicals.
3. Main advantages of this product are:
 - Easy to apply
 - Suitable for all types of marble
 - Eco friendly product devoid of any harmful chemicals
 - Protection against stains

FEATURES AND BENEFITS:

DUSH LINK is a high-performance densifier designed to strengthen soft, porous marble surfaces, making them more durable and resilient. Here are the key benefits of using DUSH LINK:

1. Increased Strength

- Structural Integrity – Enhances the structural strength of marble, granite, and other stones, making them more resistant to wear and tear.
- Durability – Strengthens the stone, minimizing the risk of cracks, chips, and damage over time.

2. Reduced Porosity

- Less Absorption – Effectively fills pores, significantly reducing porosity and preventing liquid penetration.
- Stain Resistance – Provides superior protection against stains from spills, ensuring easier cleaning and maintenance.

3. Enhanced Surface Hardness

- Scratch Resistance – Increases the surface hardness, making the stone more resistant to scratches and abrasions.
- Longer Lifespan – Helps maintain the stone's finish for an extended period, reducing the need for frequent polishing and repairs.

4. Improved Appearance

- Enhanced Shine – Boosts the natural shine and luster of the stone, providing a refined and polished look.
- Color Preservation – Protects the natural color of marble and stone, preventing discoloration and fading over time.

5. Ease of Maintenance

- Simplified Cleaning – Prevents dirt and grime from penetrating the surface, making cleaning more effortless.
- Cost-Effective – Reduces the need for intensive maintenance and frequent repairs, saving both time and money.

6. Protection Against Environmental Factors

- Weather Resistance – Offers strong resistance against moisture, temperature fluctuations, and UV exposure.
- Indoor & Outdoor Use – Suitable for both indoor and outdoor applications, ensuring versatile protection.

7. Eco-Friendly

- Non-Toxic Formula – Made from environmentally friendly ingredients, ensuring safe use in various settings.
- Sustainable Maintenance – Extends the life of marble and stone surfaces, promoting responsible use of natural materials.

HANDLING & SHELF-LIFE:

Keep the tins closed and stored in a cool and ventilated environment at a temperature of 28-35 °C, away from the source of heat. Best Before 12 months.

SAFETY RULES:

Keep the application area enough ventilated. Keep the tins closed after usage and away from sunlight. Please read carefully the safety data sheet before usage. Always test the product before use.
